Medium

REACTJS

Basic

I have experience working in the field of software development and always like to learn and apply the latest technologies to create the best software products and services possible.

Additionally, I aim to improve software performance and enhance user experience for better usability, facilitating the team and company's overall development.

WORK EXPERIENCE

WEB PORTFOLIO

10/3 - Current

Personal project

Describe project:

- Technical: NextJs
- Language: TypeScript
- Deployed by Vercel
- Introducing myself regarding the projects I have participated in, as well as some projects in my portfolio where I added UI enhancements for livelier interaction and contact information.
- Additionally, I also utilize external libraries to create more dynamic effects for the website.
- Refer Website: <https://chauruon-portfolio.vercel.app/>

FASHION SHOP API

5/2023 - Current

Personal project

Describe project:

- Language: JavaScript
- Framework: Nodejs
- Database: MongoDB
- Technical: Express to develop applications and also use body-parser, multer,...
- Encrypt important data such as passwords and also use uuid and access token
- Calculate the average of the stars that users rate that product
- Users can evaluate product quality and comment your own opinion
- The project has been deployed using heroku
- Refer: https://github.com/chauruon/Server_GZFashion

FASHION APP

1/2024 - Current

Personal project

Describe project:

- Framework: React Native
- Language: TypeScript
- Technical: Redux Saga, Fetch API from project Fashion Shop Api, FCM(Firebase Cloud Messaging), Chat (Function future)
- Fashion sales for store
- Users can evaluate product quality and comment your own opinion
- Calculate the average of the stars that users rate that product
- Manage source code through GIT

WEBSITE GAME POKER
